

Catalytic Converter Thefts

Dear Householder,

There have been a series of Catalytic Converter Thefts in the South Worcestershire
We are working to apprehend the offenders, but you could assist us by following this advice to protect your vehicle;

Protect your vehicle from catalytic converter thieves

- If you can, park your vehicle in a locked garage when it is unattended.
- If it's not possible to garage your vehicle, park it in a busy, well-lit area as close to your property as possible.
- Consider installing a **Thatcham** approved alarm to your vehicle. Ones that activate if your vehicle is lifted or tilted are particularly effective.
- Use a catalytic converter protection device or marking system.

Catalytic converters control and convert exhaust emissions from your vehicle into less toxic substances. If yours is stolen, you will know because your vehicle's engine will sound different. If you suspect your catalytic converter has been stolen, report it to us immediately by **calling 101**.

If you require any further assistance or information do not hesitate to contact your Safer Neighbourhood Team. If you have information about a crime, phone the police on 101 or anonymously contact Crimestoppers on 0800 555 111.
